Basis & Associates, Inc. is a professional structural consulting firm, established in March of 2003. We at Basis take pride in all of the work that we do. Utilizing the latest computer technology and designing software, our office is able to provide the most optimal, economic design and accurate calculations. We understand that the concept design phase offers the most opportunity to increase value, reduce cost through efficient plan design and wise systems selection. Also, we place an emphasis on early cost estimating and on floor plan development, saving detail decisions and exterior elevation development for the next step of the design process.

Our services include: Design-Build Structural Engineering & Consultation, Heavy Industrial Structures Design, Commercial Building Structures Design, Sustainable Design like Solar & Wind, Multi-Residential or Combined Type I to Type V Structure Design, Custom Residential Structures Design, Tenant Improvement Works, and Building Inspection and Material Testing Services.
