	Saemaul(A) & IDC Major	CORE	새마을정신의이해	0006	UNDERSTANDING OF SAEMAUL SPIRIT(A)	3	TUE 13:00 - 15:30 WED 09:00 - 10:30	402	LEE MISOOK	39	Compulsory	This is to develop general understanding of SAEMAUL UNDONG and SAEMAUL study. Therefore basic theories and characteristics of SAEMAUL study are introduced. SAEMAUL spirit should be developed accordingly to changed circumstance and reality in order to establish foundation of SAEMAUL study. In this context, not only initial three key spirits of SAEMAUL UNDONG, hard working, self-help, cooperation are understood, but the value of volunteering and creativeness is also discussed for SAEMAUL sprit in 21st century. In addition, Korean community development model is explored through comparative research between SAEMAUL study and various community development models.
	Public Policy & Forest & Environmnet Major	CORE	새마을정신의이해	0016	UNDERSTANDING OF SAEMAUL SPIRIT(B)	3	TUE 09:00 - 10:30 WED 13:00 - 15:30	402	LEE MISOOK	44	Compulsory	This is to develop general understanding of SAEMAUL UNDONG and SAEMAUL study. Therefore basic theories and characteristics of SAEMAUL study are introduced. SAEMAUL spirit should be developed accordingly to changed circumstance and reality in order to establish foundation of SAEMAUL study. In this context, not only initial three key spirits of SAEMAUL UNDONG, hard working, self-help, cooperation are understood, but the value of volunteering and creativeness is also discussed for SAEMAUL sprit in 21st century. In addition, Korean community development model is explored through comparative research between SAEMAUL study and various community development models.
SAEMAUL UNDONG AND COMMUNITY DEVELOPMENT MAJOR (A), (B)	2nd & 3rd Semester students	MAJOR	새마을운동사례연구	0003	CASE STUDY OF SAEMAUL UNDONG	3	TUE 16:00 - 18:30 THU 13:00 - 15:30	402	YI YANGSOO	45	Compulsory	This is to analyse comparatively SAEMAUL UNDONG cases in Korea and around the world based on SAEMAUL UNDONG theory. SAEMAUL UNDONG is one of the major factor in economic development and industrialization in Korea through community spirit of residents, residents' self-leadership, formation of environmental and resource friendly villages, and principle of sustainable development. Therefore, in this course, factors which make SAEMAUL UNDONG successful in Korea as well as further challenges are analysed in various case studies. Based on these case studies, global SAEMAUL UNDONG cases around the world are also discussed to find out problems and alternatives. At the end, sustainable global SAEMAUL UNDONG model is explored for alleviating global poverty and developing the third world countries.
	2nd & 3rd Semester students	MAJOR	정책과정론	0007	AGENDA-SETTING AND POLICY PROCESS	3	MON 13:00 - 15:30 THU 16:00 - 18:30	502	LEE SEJIN	51	Compulsory	This course examines public policy process, to study why and how policy is developed, applied, evaluated, and generally conducted as it is and how policies develop over time. In doing so, this course also deals with agenda-setting, particularly with the media and international organizations' influence in ODA policy development.
	2nd & 3rd Semester students	MAJOR	새마을교육실습	0002	SAEMAUL UNDONG PRACTICE	3	FRI 13:00 - 18:30	402	LEE JEONGJU	45	Thesis Substitution (compulsary)	This is to develop capabilities to introduce and apply SAEMAUL UNDONG theories and models through studying, applying and practicing SAEMAUL UNDONG theories, SAEMAUL UNDONG value, principles and methods in the field. This is an opportunity to advance skills and characters as SAEMAUL leader to lead community development whilst examining problems in community and using appropriate SAEMAUL methods to the region. At the end, suitable SAEMAUL UNDONG model to different community and cases is established.
	Saemaul(A) only	MAJOR	새마을운동현장학습2	0004	FIELD STUDY IN SAEMAUL UNDONG 2	1	N/A	N/A	LEE JEONGJU	12	Compulsory	This course provides students with an ample opportunity to take field trips to historic sites of SAEMAUL UNDONG movement. They are expected to observe the achievements of SAEMAUL UNDONG and other related data. The students will also have chances to talk with local residents who have participated in SAEMAUL UNDONG and have an interview with them. We will conduct pre- and post-field-trip sessions to prepare and feedback the results of the field trip in order to make the field study more effective.

	Saemaul(B) only	MAJOR	국제개발프로젝트관리1	0001	INTERNATIONAL DEVELOPMENT PROJECT MANAGEMENT 1	3	WED 13:00 - 15:30 THU 09:00 - 11:30	307	RHO WHAJOON	60	Not compulsory	Students in this course will learn how a project is reviewed, planned, implemented and finalized in the context of international development cooperation gaining familiarity with the techniques of a project management over the entire course of its process as well as result management to ensure achieving goals set for each step. The course also leads the students to have an understanding of how a management system can be rendered more effective and result-focused by way of incorporating the tasks of monitoring and evaluation into each step of the project. Also discussed are practical approaches and research methods that are directly applicable in the field of international development cooperation.
	Saemaul(B) only	MAJOR	새마을운동현장학습3	0005	FIELD STUDY IN SAEMAUL UNDONG 3	1	N/A	N/A	LEE MISOOK	33	Compulsory	This course provides students with an ample opportunity to take field trips to historic sites of SAEMAUL UNDONG movement. They are expected to observe the achievements of SAEMAUL UNDONG and other related data. The students will also have chances to talk with local residents who have participated in SAEMAUL UNDONG and have an interview with them. We will conduct pre- and post-field-trip sessions to prepare and feedback the results of the field trip in order to make the field study more effective.
INTERNATIONAL DEVELOPMENT COOPERATION MAJOR	2nd & 3rd Semester students	MAJOR	NGO와국제개발협력	0010	NGOs AND INTERNATIONAL DEVELOPMENT COOPERATION	3	TUE 16:00 - 18:30 THU 13:00 - 15:30	502	YEO HYUNDUK	27	Compulsory	Playing an increasingly more important role in all aspects of development, non-governmental organizations (NGOs) are key actors in international development cooperation and major partners of public development agencies. International development cooperation through NGOs can cover areas and objects that are not easily reachable by government-to-government cooperation framework. With this in mind, this course examines their functions, current spectrum of activities and management.
	2nd & 3rd Semester students	MAJOR	국제개발프로젝트관리1	0001	INTERNATIONAL DEVELOPMENT PROJECT MANAGEMENT 1	3	WED 13:00 - 15:30 THU 09:00 - 11:30	307	RHO WHAJOON	60	Compulsory	Students in this course will learn how a project is reviewed, planned, implemented and finalized in the context of international development cooperation gaining familiarity with the techniques of a project management over the entire course of its process as well as result management to ensure achieving goals set for each step. The course also leads the students to have an understanding of how a management system can be rendered more effective and result-focused by way of incorporating the tasks of monitoring and evaluation into each step of the project. Also discussed are practical approaches and research methods that are directly applicable in the field of international development cooperation.
	2nd & 3rd Semester students	MAJOR	경제발전론	0011	DEVELOPMENT ECONOMICS	3	MON 09:00 - 11:30 THU 16:00 - 18:30	307	HAN DONGEUN LEE BYEONGWAN	54	Thesis Substitution (compulsory)	The goal of this course is to understand the process of economic development for developing countries. Focus will be placed on success factors and impediments to economic development, models of economic planning, roles of fiscal and monetary policy, international trade and economic development, etc.
	2nd & 3rd Semester students	MAJOR	국제개발협력현장학습2	0012	FIELD STUDY IN INTERNATIONAL DEVELOPMENT COOPERATION 2	1	N/A	N/A	PARK SEUNGWOO	27	Compulsory	This course aims to enhance the students' understanding of international development cooperation and improve practical field skills including English communication and leadership skills through an overseas field study opportunity. Students will also learn report writing techniques for their study plan essay and post-trip report. Evaluation of performance includes presentation of field study report.
PUBLIC POLICY AND LEADERSHIP MAJOR	2nd & 3rd Semester students	MAJOR	범지구적환경이슈	0015	GLOBAL ENVIRONMENTAL ISSUES	3	WED 09:00 - 11:30 FRI 09:00 - 11:30	502	LEE YOCHAN	33	Compulsory	Global environmental issues deals with the interface between humans and Earth, and explores the interactions and relations between them. The objectives of this course are to present well-established scientific principles and concepts that form the knowledge base for an understanding of our interactions with the natural environment and to give an assessment of options or progress in solving environmental problems. The lectures cover not only local or regional environmental problems but also global issues such as climate change, ozone layer destruction, and biodiversity loss.
	2nd & 3rd Semester students	MAJOR	한국경제세미나	0018	SEMINAR ON KOREAN ECONOMY	3	MON 13:00 - 18:30	402	JWA SUNGHEE	27	Compulsory	This course will use a graduate-student seminar format to examine selected current topics on Korean Economy.
	2nd & 3rd Semester students	MAJOR	경제발전론	0011	DEVELOPMENT ECONOMICS	3	MON 09:00 - 11:30 THU 16:00 - 18:30	307	HAN DONGEUN LEE BYEONGWAN	54	Thesis Substitution (compulsory)	The goal of this course is to understand the process of economic development for developing countries. Focus will be placed on success factors and impediments to economic development, models of economic planning, roles of fiscal and monetary policy, international trade and economic development, etc.
	2nd & 3rd Semester students	MAJOR	경제개발현장학습2	0014	FIELD STUDY ON ECONOMIC DEVELOPMENT 2	1	N/A	N/A	HAN DONGEUN	27	Compulsory	This course offers students an opportunity to visit field sites of economic development. Visiting sites include industrial complex, R&D centers, physical infra such as dams and expressways, and institutions involved in development policies. Students are required to submit a report regarding the sites they have visited.

FOREST RESOURCES AND ECOLOGICAL RESTORATION MAJOR	2nd & 3rd Semester students	MAJOR	산림과단기소득	0019	FOREST AND SHORT-TERM EARNINGS	3	MON 16:00 - 18:30 TUE 14:00 - 16:30	602	LEE DONKOO KIM YONGSHIK	11	Compulsory	This course covers what forest resources are useful as good income sources in a short period. Those resources include mainly non-timber forest products (NTFP). Among the NTFPs in Korea, fruits/nuts, saps, mushrooms, wild flowers and medicinal herbs are dealt in the class. Forest farmers in Korea dealing with those items described above and their productivities and earnings are introduced in the class. A field trip to farming areas of non-timber forest products that produce short-term earnings is scheduled for discussion.
	2nd & 3rd Semester students	MAJOR	수목학	0022	DENDROLOGY	3	THU 09:00 - 11:30 FRI 09:00 - 11:30	602	KIM YONGSHIK LEE YOHAN	11	Compulsory	This course is to learn identification, distribution, taxonomic and silvical characteristics, and uses of an angiosperms and gymnosperms of Korea including introduced important forest tree species.
	2nd & 3rd Semester students	MAJOR	산림이슈세미나	0020	SEMINAR ON FOREST ISSUES	3	THU 16:00 - 18:30 FRI 13:00 - 15:30	602	LEE YOHAN	11	Thesis Substitution (compulsory)	This course deals with various topics on forest issues in Korea. Major topics are focused on historic issues of forest in Korean peninsula. Furthermore, history of degraded forest land and the tough/difficult processes of rehabilitation in the Korean peninsula, as well as the status and role of Korean forest policy in the global level are discussed. Students are asked to participate in active presentation, discussion and team projects in the class.
	2nd & 3rd Semester students	MAJOR	산림자원현장학습2	0021	FIELD STUDY IN FOREST RESOURCES 2	1	N/A	N/A	LEE DONKOO KIM YONGSHIK	11	Compulsory	This topic deals with a broad understanding of relevant knowledges on forestry and ecological restoration through visits to government institutions, universities, research institutes, and factories which are relevant to the forestry sciences, as well as to sites of afforestation and ecological restoration.
ENVIRONMENTAL MANAGEMENT AND POLICY MAJOR	2nd Semester studnets	MAJOR	범지구적환경이슈	0015	GLOBAL ENVIRONMENTAL ISSUES	3	WED 09:00 - 11:30 FRI 09:00 - 11:30	502	LEE YOHAN	33	Compulsory	Global environmental issues deals with the interface between humans and Earth, and explores the interactions and relations between them. The objectives of this course are to present well-established scientific principles and concepts that form the knowledge base for an understanding of our interactions with the natural environment and to give an assessment of options or progress in solving environmental problems. The lectures cover not only local or regional environmental problems but also global issues such as climate change, ozone layer destruction, and biodiversity loss.
	2nd Semester studnets	MAJOR	수자원시스템및수질관리론	0023	WATER RESOURCES SYSTEM AND WATER QUALITY MANAGEMENT	3	MON 16:00 - 18:30 THU 09:00 - 11:30	502	SEO YONGWON	6	Compulsory	This course is concerned with quantitative methods for analyzing large-scale water resource problems. Topics covered include the design and management of facilities for river basin development, flood control, water supply, groundwater remediation, and other activities related to water resources. And, this course will explore the basic water chemistry including relevant chemical principles and their implications in water to understand water pollution. It will also cover the management of non-point sources and watershed. The students will also study the fate and diffusion models of pollutants and management techniques for water pollution to conserve and to manage water quality.
	2nd Semester studnets	MAJOR	정책과정론	0007	AGENDA-SETTING AND POLICY PROCESS	3	MON 13:00 - 15:30 THU 16:00 - 18:30	502	LEE SEJIN	51	Compulsory	This course examines public policy process, to study why and how policy is developed, applied, evaluated, and generally conducted as it is and how policies develop over time. In doing so, this course also deals with agenda-setting, particularly with the media and international organizations' influence in ODA policy development.
	2nd Semester studnets	MAJOR	환경관리및정책현장학습2	0025	FIELD STUDY IN ENVIRONMENTAL MANAGEMENT AND POLICY 2	1	N/A	N/A	YI HUIJUK	6	Compulsory	This course provides students with a chance to make visits to various places where they can have an understanding of the society's collective efforts to resolve the problems of environmental destruction. Students will visit many governmental agencies, public institutions and environmental NGOs who are engaged in the environmental management and policy implementation.

Several activity classes are offered for this summer semester to all PSPS students. To avoid confusion and mistakes in registering, students are expected to follow the registration instructions below.

### Registration Instructions for Activity Classes

All Saemaul Undong B students are required to register for the Activity 3 (Taekwondo) scheduled on Wed. 18:00 – 19:40 / Sat. 13:00 – 14:40

Please take note of the maximum member of students allowed to register for each activity class. First come, first served policy shall be strictly applied.

- ▶ Activity 2 (Taekwondo) Wed. 16:00 – 17:40 / Sat. 15:00 – 16:40  
maximum of 34 students only
- ▶ Activity 2 (Samulnori 1) Wed. 16:00 – 17:40 / Sat. 09:00 – 10:40  
maximum of 14 students only
- ▶ Activity 2 (Samulnori 2A) Wed. 16:00 – 17:40 / Sat. 09:00 – 10:40  
maximum of 15 students only
- ▶ Activity 2 (Samulnori 2B) Wed. 18:00 – 19:40 / Sat. 11:00 – 12:40  
maximum of 15 students only

Activity 2 (Taekwondo) and Activity 2 (Samulnori 1) are only offered to students who have not taken either class.

While Activity 2 (Samulnori 2A and 2B) are offered only to students who have already taken Samulnori in the previous semester.

With the exception of Saemaul Undong B students, the offered activity classes have been based on the previous survey made. It is highly recommended that students follow the response they have given during the survey.
