MAJOR	대상	REMARKS	교과목명	REGISTRATION NUMBER	SUBJECT	CREDIT	CLASS HOUR	CLASSROOM	PROFESSOR	LIMIT NUMBER OF STUDENTS	REMARKS	OUTLINE
ALL STUDENTS EXCEPT FOR KOREAN	KOREAN LANGUAGE CLASS 1A (New Students)			CLASSROOM AND TEACHER WILL BE NOTIFIED AT A LATER DATE ON THE PSPS WEBSITE.								KOREAN LANGUAGE CLASS & TEACHERS WILL BE ASSIGNED BY KOREAN LANGUAGE INSTITUTE
	KOREAN LANGUAGE CLASS 1B (Those who have passed 1A)			CLASSROOM AND TEACHER WILL BE NOTIFIED AT A LATER DATE ON THE PSPS WEBSITE.								KOREAN LANGUAGE CLASS & TEACHERS WILL BE ASSIGNED BY KOREAN LANGUAGE INSTITUTE
ALL MAJOR	1st semester students	CORE	특별활동1: 태권도	0024	ACTIVITY1 : TAEKWONDO(1A)	1	SAT 11:00 - 12:50	E04-114	KIM SIYONG	33	Compulsory	TAEKWONDO : For those students who take the TAEKWONDO class first.
	1st semester students	CORE	특별활동1: 태권도	0013	ACTIVITY1 : TAEKWONDO(1B)	1	SAT 13:00 - 14:50	E04-114	KIM SIYONG	33	Compulsory	TAEKWONDO : For those students who take the TAEKWONDO class first.
	1st semester students	CORE	특별활동1: 태권도	0014	ACTIVITY1 : TAEKWONDO(1C)	1	SAT 15:00 - 16:50	E04-114	KIM SIYONG	33	Compulsory	TAEKWONDO : For those students who take the TAEKWONDO class first.
	2nd Semester Students	CORE	특별활동1: 사물놀이	0015	ACTIVITY1 : SAMULNORI(1A)	1	SAT 09:00 - 10:50	A11-305	NAM PILBONG	22	Compulsory	SAMULNORI :For those students who take the SAMULNORI class first.
	2nd Semester Students	CORE	특별활동1: 사물놀이	0016	ACTIVITY1 : SAMULNORI(1B)	1	SAT 11:00 - 12:50	A11-305	NAM PILBONG	22	Compulsory	SAMULNORI :For those students who take the SAMULNORI class first.
	2nd Semester Students	CORE	특별활동1: 사물놀이	0017	ACTIVITY1 : SAMULNORI(1C)	1	SAT 09:00 - 10:50	A11-329	KIM KI HO	22	Compulsory	SAMULNORI :For those students who take the SAMULNORI class first.
	2nd Semester Students	CORE	특별활동1: 사물놀이	0018	ACTIVITY1 : SAMULNORI(1D)	1	SAT 11:00 - 12:50	A11-329	KIM KI HO	22	Compulsory	SAMULNORI :For those students who take the SAMULNORI class first.
	All Students	CORE	새마을정신의이해	0005	UNDERSTANDING OF SAEMAUL SPIRIT(A)	3	MON 09:00 - 11:50	402	LEE MISOOK	40		This is to develop general understanding of SAEMAUL UNDONG and SAEMAUL study. Therefore basic theories and characteristics of SAEMAUL study are introduced. SAEMAUL spirit should be developed accordingly to changed circumstance and reality in order to establish foundation of SAEMAUL study. In this context, not only initial three key spirits of SAEMAUL UNDONG, hard working, self-help, cooperation are understood, but the value of volunteering and creativeness is also discussed for SAEMAUL sprit in 21st century. In addition, Korean community development model is explored through comparative research between SAEMAUL study and various community development models.
	All Students	CORE	새마을정신의이해	0006	UNDERSTANDING OF SAEMAUL SPIRIT(B)	3	TUE 09:00 - 11:50	402	LEE MISOOK	40		This is to develop general understanding of SAEMAUL UNDONG and SAEMAUL study. Therefore basic theories and characteristics of SAEMAUL study are introduced. SAEMAUL spirit should be developed accordingly to changed circumstance and reality in order to establish foundation of SAEMAUL study. In this context, not only initial three key spirits of SAEMAUL UNDONG, hard working, self-help, cooperation are understood, but the value of volunteering and creativeness is also discussed for SAEMAUL sprit in 21st century. In addition, Korean community development model is explored through comparative research between SAEMAUL study and various community development models.
	All Studnets + All KEITI students (Compulsury)	CORE	환경정책과지속가능발전	0019	ENVIRONMENTAL POLICY AND SUSTAINABLE DEVELOPMENT	3	MON 13:00 - 15:50	402	KIM JONGDAL	30		This course will examine theoretical background and policy effectiveness of various environmental policies, and also investigate major issues of the contemporary sustainable development concept. Case studies of domestic and foreign environmental policies will also be covered. The course will emphasize the importance of relevant policy mix among environmental, economic, industrial, urban, and transportation polices in attaining sustainable development.
	All Students	CORE	연구방법및논문작성의이해	0008	Research Method and Thesis Writing Skill(A)	3	MON 09:00 - 11:50	502	LEE YOHAN	40		This is to develop practical skills and theoretical understanding of research methods required to examine and analyse phenomena in community. For this purpose, quantitative methods as well as case study methods based on qualitative analysis are taught in order to analyze data and write research report. Students will be able to find out problems in community and analyse them with statistical skills after studying a wide range of research process including research design, conceptualization, data collection, data processing and analysis, and interpretation. Through these research methods and skills, changes of community are well understood and how to develop the community is explored.
	All Students + All KEITI students (Compulsury)	CORE	연구방법및논문작성의이해	0009	Research Method and Thesis Writing Skill(B)	3	TUE 09:00 - 11:50	502	LEE YOHAN	40		This is to develop practical skills and theoretical understanding of research methods required to examine and analyse phenomena in community. For this purpose, quantitative methods as well as case study methods based on qualitative analysis are taught in order to analyze data and write research report. Students will be able to find out problems in community and analyse them with statistical skills after studying a wide range of research process including research design, conceptualization, data collection, data processing and analysis, and interpretation. Through these research methods and skills, changes of community are well understood and how to develop the community is explored.
	All Students	CORE	연구방법및논문작성의이해	0010	Research Method and Thesis Writing Skill(C)	3	WED 09:00 - 11:50	502	LEE YOHAN	40		This is to develop practical skills and theoretical understanding of research methods required to examine and analyse phenomena in community. 	All Students	CORE	경제분석론	0001	ECONOMIC ANALYSIS(BASIC)	3	MON 13:00 - 15:50	307	HAN DONGGEUN	40		This course deals with fundamental tools for economic analysis. The tools include both micro and macro economic models. The course teaches students the types and structure of markets, how each market operates, and the principle of resource allocation. Macroeconomic topics include determination of national income, growth theory. Some international issues are also covered.
	All Students	CORE	경제분석론	0002	ECONOMIC ANALYSIS(ADVANCED)	3	MON 13:00 - 15:50	502	JWA SUNGHEE	40		This course deals with fundamental tools for economic analysis. The tools include both micro and macro economic models. The course teaches students the types and structure of markets, how each market operates, and the principle of resource allocation. Macroeconomic topics include determination of national income, growth theory. Some international issues are also covered.
	4th Semester students	THESIS RESEARCH	논문연구	-	THESIS RESEARCH	3	-	-	-	-	Compulsory	THESIS RESEARCH (Each major)
SAEMAUL UNDONG AND COMMUNITY DEVELOPMENT MAJOR	1st & 2nd Semester students	MAJOR	새마을지역개발:이슈와토론	0007	SAEMAUL Community Development: Issues and Discussion	3	WED 13:00 - 15:50	602	YI Yang Soo	30		This course provides students with an opportunity to analyze the historical cases of Korea's SAEMAUL UNDONG and to compare them with the cases of 'global SAEMAUL UNDONG' that has recently been in vogue in many other countries in the world. The course encourages students to devise for each of their own country more applicable and advisable programs of SAEMAUL UNDONG. Students are also strongly recommended to participate actively in the class through presentations, interactive discussions and group activities including team projects.
	1st & 2nd Semester students	MAJOR	새마을운동사례연구	0003	Case Study of SAEMAUL UNDONG	3	TUE 13:00 - 15:50	307	LEE MISOOK	30		This is to analyse comparatively SAEMAUL UNDONG cases in Korea and around the world based on SAEMAUL UNDONG theory. SAEMAUL UNDONG is one of the major factor in economic development and industrialization in Korea through community spirit of residents, residents' self-leadership, formation of environmental and resource friendly villages, and principle of sustainable development. Therefore, in this course, factors which make SAEMAUL UNDONG successful in Korea as well as further challenges are analysed in various case studies. Based on these case studies, global SAEMAUL UNDONG cases around the world are also discussed to find out problems and alternatives. At the end, sustainable global SAEMAUL UNDONG model is explored for alleviating global poverty and developing the third world countries.
	1st & 2nd Semester students	MAJOR	지역개발론	0012	Theories of Community Development	3	MON 09:00 - 11:50	602	JEON GYEONG GOO	30		In this course students will study about various theories of community development in different academic disciplines in social sciences. They will learn about the significant meaning of the community development, its strategy and methods, and recent theoretical trends. In addition, this course will also give students a chance to place 'community development' in the context of global social development and of our project for Millenium Development Goals (MDGs) and Post-2015 Development Agenda.
	1st & 2nd Semester students	MAJOR	지역개발과마케팅	0011	Community Development and Marketing	3	THU 09:00 - 11:50	402	YI HUIUK	30		Community Development and Marketing is to study a set of guiding principles for interfacing with residents in regions, collaborators, and the environment for regional development. It entails planning, implementing, and controlling the marketing conception of regional development. It starts with identifying and measuring residents' needs and wants, assessing the competitive environment, selecting the most appropriate targets and developing marketing strategy and implementation program for an offering that satisfies residents' needs.
	1st & 2nd Semester students	MAJOR	새마을운동현장학습1	0004	FIELD STUDY IN SAEMAUL UNDONG 1 (A)	1	N/A	N/A	Undecided	20	Compulsory	This course provides students with an ample opportunity to take field trips to historic sites of SAEMAUL UNDONG movement. They are expected to observe the achievements of SAEMAUL UNDONG and other related data. The students will also have chances to talk with local residents who have participated in SAEMAUL UNDONG and have an interview with them. We will conduct pre- and post-field-trip sessions to prepare and feedback the results of the field trip in order to make the field study more effective.
	2nd Semester KOICA students only	MAJOR	새마을운동현장학습1	0036	FIELD STUDY IN SAEMAUL UNDONG 1 (B)	1	N/A	N/A	Undecided	36	Compulsory	This course provides students with an ample opportunity to take field trips to historic sites of SAEMAUL UNDONG movement. They are expected to observe the achievements of SAEMAUL UNDONG and other related data. The students will also have chances to talk with local residents who have participated in SAEMAUL UNDONG and have an interview with them. We will conduct pre- and post-field-trip sessions to prepare and feedback the results of the field trip in order to make the field study more effective.
INTERNATIONAL DEVELOPMENT	1st & 2nd Semester students	MAJOR	국제개발프로젝트관리1	0020	INTERNATIONAL DEVELOPMENT PROJECT MANAGEMENT 1	3	THU 09:00 - 11:50	502	RHO WHAJOON	30	Compulsory	Students in this course will learn how a project is reviewed, planned, implemented and finalized in the context of international development cooperation gaining familiarity with the techniques of a project management over the entire course of its process as well as result management to ensure achieving goals set for each step. The course also leads the students to have an understanding of how a management system can be rendered more effective and result-focused by way of incorporating the tasks of monitoring and evaluation into each step of the project. Also discussed are practical approaches and research methods that are directly applicable in the field of international development cooperation.
	1st & 2nd Semester students	MAJOR	국제개발협력:이슈와토론	0021	INTERNATIONAL DEVELOPMENT COOPERATION: ISSUES AND DISCUSSION	3	WED 13:00 - 15:50	307	CHO HWANBOK	30		This course focuses on best practice models of international development cooperation from both micro- and macroeconomic perspectives. Students will be assigned group presentation project with topics that are fieldwork and case study oriented.
	1st & 2nd Semester students	MAJOR	비용편익분석	0023	COST-BENEFIT ANALYSIS	3	WED 13:00 - 15:50	402	BYEON JONGKOOK	30		This course introduces the students to the role, underlying principles and application of cost-benefit analysis as a tool for public project evaluation. The students will be exposed to a wide range of its applications with different types of government projects. They will also learn critical appraisal skills that enable them to properly evaluate public reports.

COOPERATION MAJOR	1st & 2nd Semester students (Combined class with Saemaul major)	MAJOR	새마을운동사례연구	0003	Case Study of SAEMAUL UNDONG	3	TUE 13:00 - 15:50	307	LEE MISOOK	30		This is to analyse comparatively SAEMAUL UNDONG cases in Korea and around the world based on SAEMAUL UNDONG theory. SAEMAUL UNDONG is one of the major factor in economic development and industrialization in Korea through community spirit of residents, residents' self-leadership, formation of environmental and resource friendly villages, and principle of sustainable development. Therefore, in this course, factors which make SAEMAUL UNDONG successful in Korea as well as further challenges are analysed in various case studies. Based on these case studies, global SAEMAUL UNDONG cases around the world are also discussed to find out problems and alternatives. At the end, sustainable global SAEMAUL UNDONG model is explored for alleviating global poverty and developing the third world countries.
	1st & 2nd Semester students (Except for the KEITI students)	MAJOR	국제개발협력현장학습1	0022	FIELD STUDY IN INTERNATIONAL DEVELOPMENT COOPERATION 1	1	N/A	N/A	Undecided	36	Compulsory	This course aims to enhance the students' understanding of international development cooperation and improve practical field skills including English communication and leadership skills through an overseas field study opportunity. Students will also learn report writing techniques for their study plan essay and post-trip report. Evaluation of performance includes presentation of field study report.
PUBLIC POLICY AND LEADERSHIP MAJOR	1st & 2nd Semester students	MAJOR	계량분석	0027	QUANTITATIVE ANALYSIS	3	WED 13:00 - 15:50	502	AN BYEONGCHUL	30		The purpose of this course is to acquaint the students with the fundamental and technical concepts of scientific approach to decision-making. The quantitative approach includes collecting and sorting of data, descriptive characterization of data, finding regularity in inter-variable relationship, and statistical inferences. Regression analysis, ANOVA analysis, t-test are among the techniques discussed in class.
	1st & 2nd Semester students	MAJOR	동아시아경제세미나	0028	SEMINAR IN EAST ASIAN ECONOMY	3	WED 09:00 - 11:50	502	LEE BYEONGWAN	30		This course will use a graduate-student seminar format to examine selected current topics on East Asian Economy.
	1st & 2nd Semester students	MAJOR	IT와 경제발전	0025	IT AND ECONOMIC DEVELOPMENT	3	THU 09:00 - 11:50	602	KIM KISU	30		This course introduces diverse information technologies and their applications and studies how information technologies can be used for regional and national economic development especially in developing countries. Specifically, students study importance of information technology, impacts of information technologies on individual people, businesses, the society, and the state, and also learn new information technologies such as data management, network, electronic commerce, and wireless technologies with their applications. Based on these understanding they study how information technologies can be applied to make economic activities more efficient and effective and how new economy can be created by using information technologies as well. Further, cases of countries which adopted information technologies successfully for their economic development are introduced.
	1st & 2nd Semester students	MAJOR	정책과정론	0029	AGENDA-SETTING AND POLICY PROCESS	3	TUE 14:00 - 16:50	402	PARK SANG CHEOL	30		This course examines public policy process, to study why and how policy is developed, applied, evaluated, and generally conducted as it is and how policies develop over time. In doing so, this course also deals with agenda-setting, particularly with the media and international organizations' influence in ODA policy development.
	1st & 2nd Semester students (Except for the KEITI students)	MAJOR	경제개발현장학습3	0026	FIELD STUDY ON ECONOMIC DEVELOPMENT 3	1	N/A	N/A	HAN DONGEUN	52	Compulsory	This course offers students an opportunity to visit field sites of economic development. Visiting sites include industrial complex, R&D centers, physical infra such as dams and expressways, and institutions involved in development policies. Students are required to submit a report regarding the sites they have visited.
FOREST RESOURCES AND ECOLOGICAL RESTORATION MAJOR	1st & 2nd Semester students	MAJOR	조림학	0032	SILVICULTURE	3	TUE 14:00 - 16:50	602	LEE DONKOO	10	Compulsory	SILVICULTURE deals with the theory and practice for the establishment and management of forest resources. The major topics are 1) silviculture for timber production, 2) silviculture for wildlife habitat, 3) silviculture for recreation activities, and 4) silviculture for biodiversity and conservation of species. Silviculture for timber production includes the theory and practice for seed production, seed treatment and seed storage, seedling production, nursery management, planting method, and tending such as thinning and pruning, natural regeneration, silvicultural systems and forest dynamics caused by stand treatment. Lecture also includes forest ecosystem management for sustainable yields in relation to the examples of forest management for wildlife, recreation, and biodiversity. Characteristics of propagation and tending methods of Korean native trees are also discussed. Finally, major topical and boreal tree species are introduced to the students.
	1st & 2nd Semester students	MAJOR	수목학	0031	DENDROLOGY	3	WED 13:00 - 15:50	307-3	KIM YONGSHIK	10	Compulsory	This course is to learn identification, distribution, taxonomic and silvical characteristics, and uses of an angiosperms and gymnosperms of Korea including introduced important forest tree species.
	1st & 2nd Semester students	MAJOR	산림자원현장학습1	0030	FIELD STUDY IN FOREST RESOURCES 1	1	N/A	N/A	Undecided	10	Compulsory	This topic deals with a broad understanding of relevant knowledges on forestry and ecological restoration through visits to government institutions, universities, research institutes, and factories which are relevant to the forestry sciences, as well as to sites of afforestation and ecological restoration.
	1st & 2nd Semester students	MAJOR	환경공학	0034	ENVIRONMENTAL ENGINEERING	3	THU 13:00 - 15:50	602	JUNG JINYOUNG	15	Compulsory	Environmental engineering is the integration of science and engineering principles to improve the natural environment, to provide healthy water, air, and land for human habitation and for other organisms, and to clean up pollution sites. And, it is concerned with finding plausible solutions in the field of public health, such as water-borne diseases, implementing law which promote adequate sanitation in urban, rural and recreational areas. This course involves wastewater management and air pollution control, recycling, waste disposal, environmental sustainability and public health issues as well as a knowledge of environmental engineering law.

ENVIRONMENTAL MANAGEMENT AND POLICY MAJOR	1st & 2nd Semester students	MAJOR	글로벌환경이슈	0033	Global Environmental Issues	3	TUE 13:00 - 15:50	502	LEE YOCHAN	15	Compulsory	Global environmental issues deals with the interface between humans and Earth, and explores the interactions and relations between them. The objectives of this course are to present well-established scientific principles and concepts that form the knowledge base for an understanding of our interactions with the natural environment and to give an assessment of options or progress in solving environmental problems. The lectures cover not only local or regional environmental problems but also global issues such as climate change, ozone layer destruction, and biodiversity loss.
	1st & 3rd Semester students + All KEITI students	MAJOR	환경관리및정책현장학습1	0035	FIELD STUDY IN ENVIRONMENTAL MANAGEMENT AND POLICY 1	1	N/A	N/A	Undecided	22	Compulsory	This course provides students with a chance to make visits to various places where they can have an understanding of the society's collective efforts to resolve the problems of environmental destruction. Students will visit many governmental agencies, public institutions and environmental NGOs who are engaged in the environmental management and policy implementation.
