

How to play " Yutnori "(윷놀이)

1. The game is played among three teams who play in turns.
2. There is no limit in the number of participants in a game, which mean that the game can be played by a considerable group.
3. When played with large groups, it is not uncommon for some group mebers never to cast the sticks: they still participate discussing the strategy.
4. The start of the game is determined by each team casting the Yut sticks.
5. The team with the highest score starts first.
6. Each team then casts the sticks in turn.
7. A player achieving a Yut or Mo is allowed to cast again.
8. There is no limit to the number of times a player can cast again before the end of a turn, provided he or she keeps casting Yuts or Mos.
9. Each team moves a Mal according to the score achieved.
(There are human tokens(marks) used for the game, called Mal.)
10. If a Mal lands on a station occupied by the opponent's team, the oppo-
nent's Mal is removed from the course and returned to the starting position,
and the current player is allowed to cast again.
11. If a Mal lands on a station occupied by the own team, these Mals can
travel together from that point on (counting as one).
12. However, if an opponent lands their Mal on a station occupied by
several Mals of the opponent, all these are removed from the course.
13. The Mals travel around the board and can move forward only.
14. However, when landing on one of the big stations (in the corner and the
centre), the team can choose to take the shorter way should they wish to.
15. The game is won by the team who bring all their 4 Mals home first, that
is complete the course with all their Mals.

Name	State	Movement
도(Do)		Forward 1 space
개(Gae)		Forward 2 spaces
걸(Geol)		Forward 3 spaces
윷(Yut)		Forward 4 spaces
모(Mo)		Forward 5 spaces
백도(Back-do)		Backward 1 space
