

# Guidelines for Applying for Minor

## 1. Minor

The PSPS, Yeungnam University offers minor fields of study to provide students with the opportunity to broaden their education. The selection of a minor field of study shall be made to fulfil this goal.

To satisfy course requirements in the minor field of study, a student should obtain 6 credit hours of course work in a field of study other than his or her major during the semester. The completed minor will be written on the diploma.

If the student cannot obtain the minimum 6 credit hours by the last semester, the minor completion will be canceled. Credits earned during the course may not be counted as course work in the minor, but will be counted as the major elective credits.

The selection of minor is not mandatory.

### [List of Major]

- Saemaul Undong Theory and Practice Major
- International Development Cooperation Major
- Forest Resources and Ecological Restoration Major
- Public Policy and Leadership Major

## 2. How to Apply for Minor

Fill out the attached form (Minor Application Form) and submit it to the PSPS office.
