

Guideline for submission of thesis file online

1. Notice about submission of thesis file online

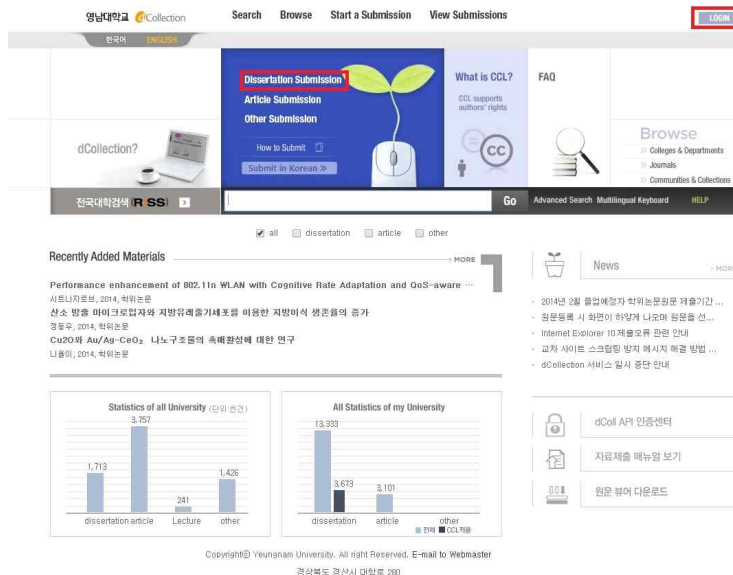

- 1) The original thesis file of thesis should be registered as the same one which is printed out for bookbinding of the thesis. (*.hwp, *.doc, *.docx, *.pdf)

In other words, The original thesis file which is included from a cover to table of contents, Appendix, Bibliography and Abstract should be uploaded.

2. Click "Submit a Thesis" at YU library website (<http://libs.yu.ac.kr>).

3. Log in on the newly popped up webpage (<http://yu.dcollection.net>) and submit a thesis according to the following guideline (page 3).

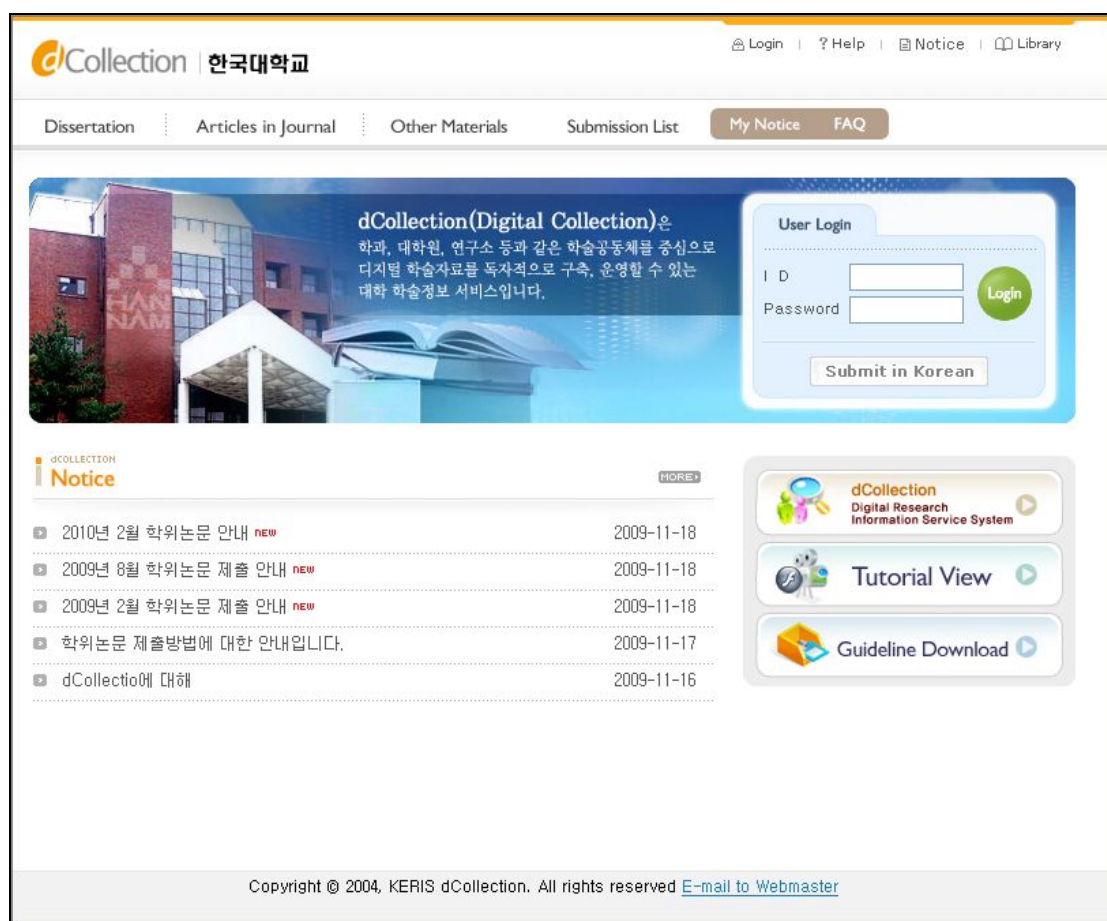

※ Password for YU library will work. The password on this website can be different with it in URP system according to users' setting.

Default password is first 6 digit of resident registration number.

4. Sign up on the printed "Author Permission Agreement (학위논문 저작권 동의서)" and submit it to PSPS office. Keep "Confirmation dissertation submitted (학위논문제출확인서)" yourself.

5. Inquiry: YU central library 1st floor Digital Resources Room

Tel. +82-53-810-1673 CHOI Jin Yeoung (jychoi@ynu.ac.kr)

- 1) Enter your ID (library account ID - student number) and password (library account password) to log in.
- 2) After log in, select the menu of dissertation submission menu.

2-2) If you don't agree, the dissertation will not be provided to public users.

However, you have to explain the reason of disagreement.

3) Set up display of author, non-profit, prohibition of change and allowance of change on same condition in the scope of license (scope of use) set-up.

@ Attribution: This means the right of paternity (Article 12 Paragraph 1 of the License Law) is exercised. As one of author's moral right, the right is to display the real name or nickname when publishing the copy of original or writings. Therefore, users must display the author to use the writings.

@ Non-Commercial: This means that you do not use the writings for commercial purpose. Of course, although the writer sets this non-profit condition, the writer may conduct profitable activities by using this writing. Therefore, if any user wants to use the writing for commercial purpose, it may be allowed with consideration by separate agreement.

@ No derivative: This means that simple change including substance and format of writings which are not considered as new writing as well as the 2nd writing based on this writing is prohibited

@ Share alike: Although the 2nd writing by using this writing is allowed, the 2nd writing should be applied by same license like the original.

APPENDIXES 177
Appendix A 178
Appendix B 180

Input Contents(Bookmark) Process

- This information is to create a bookmark for PDF document.
- Designate the stage with the empty field as seen in the figure.
- The end of each line is the number of page. Be sure to mark as numerical number. (Roman alphabets cannot be used. Be sure to enter an empty space ahead of the number,)

Next

1) This is a file uploading screen.

2) First of all, select the type of File.

(※ The type of file may be different according to the value which the administrator selected.)

@ **General document (hwp, doc, etc.)** : If the document is made by general document editor such as Hangeul, MS Word, Excel, Powerpoint (in case of general document, multiple files can be registered)

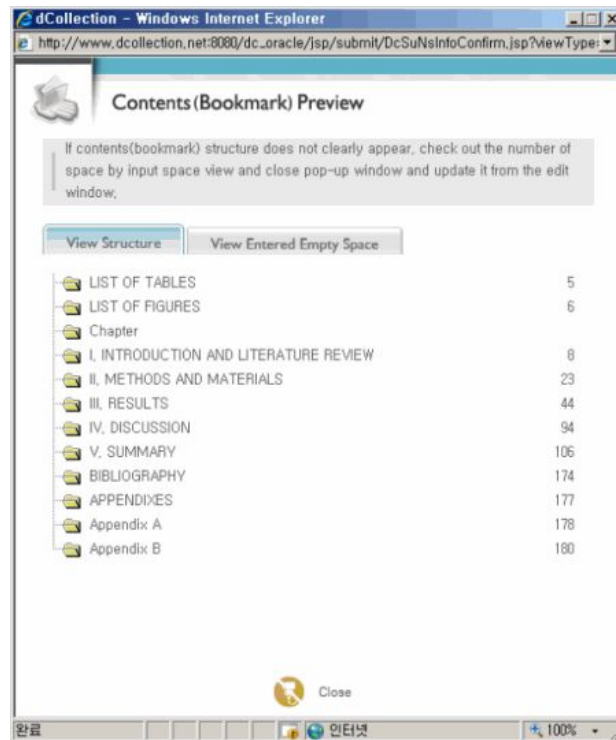

@ **PDF** : In case the dissertation is PDF file (However, in case of PDF file, only one file can be registered.)

@ **URL** : If the file is submitted as URL.

@ Separate submission: In case the volume of file is too big to be submitted through online (more than 100MB)

3) In case of general document, multiple files can be registered. When registering multiple files, they have to be registered in the order of the documents.

4) The start page should be actual physical page where the body begins (page with the numerical number) Excluding cover and contents, etc.

5) The contents (bookmark) are basically same as the contents of meta information entering stage.

However, the dots between each item and the page number must be deleted.

ex) 1.1~Study background~ · · · ~2 ⇒ 1.1~Study background~2

And if it is hierarchical structure, it has to be indented one by one as it goes down to sub class.

6) If you select next stage, then the preview of the contents (bookmark) will be popped up.

7) If 'confirm' is selected from the preview window of contents (bookmark), the pop-up window will be closed and the file will be uploaded.

8) After the file is uploaded, it goes to 'confirm submission' stage.

- Approve or not
 - Not approved : the approval of administrator is not processed.
 - Approved : the approval of administrator is made, You can print out license agreement and confirmation.
- Status of dissertation
 - Not completed : The submittal is not successfully completed, Move to detailed screen and select submittal is finished.
 - Successful submittal : The dissertation is successfully submitted.
 - verification : submitted dissertation is verified by administrator.
 - In service : submitted dissertation is in service, You can check the dissertation through search.
 - return : The dissertation is returned by administrator due to certain reason, Check out the reason of return in private notice move to the details of the returned dissertation screen from the submission list, update the content and re-submit.
 - Re-submit : returned dissertation is submitted again.

1) The lookup submittal allows to check out the substances of the dissertation, revise detailed information in the submitted dissertation and check out the status made by the administrator.

2) Approval status

Not approved : The dissertation is not approved by the administrator.

Approved : The dissertation is approved by the administrator.

In case the administrator approves, the approval notice mail will be sent to the submitter.

The submitter can check out the approval notice mail at 'Private notice,' and print the license agreement and confirmation of submittal from the detailed screen of the approval notice.

3) The status of dissertation

Submittal completed : The submittal is completed, and the administrator is waiting to process the submittal

Not completed : If you do not select "Final submittal" at the last stage, it is not completed.

(The dissertation information can be revised by the submitter)

If you select the name of dissertation, go to detailed information of the dissertation, and select "Final submittal", then the submittal is completed.

Return : Since there are problems with the submitted dissertation, the administrator returns the dissertation to the submitter.

(The dissertation information can be revised by the submitter)

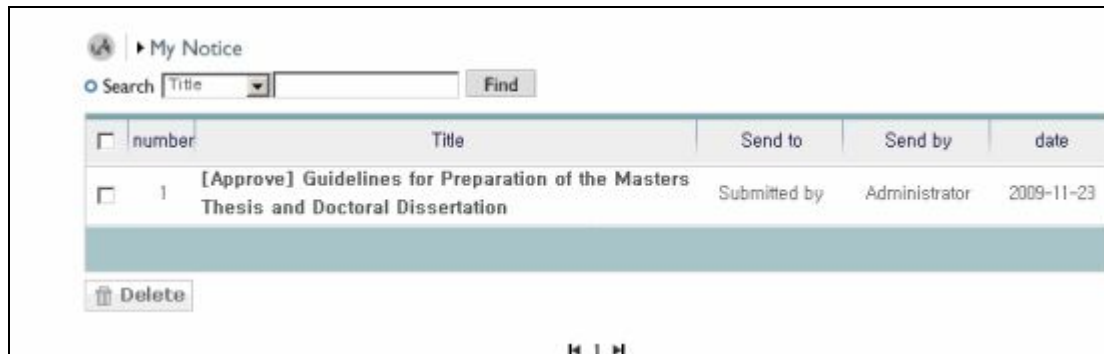

The submitter can check out the matters related to the return from the "lookup submittal" or "private notice."

Submit the dissertation again after solving the problems.

Verification : The submitted dissertation is being processed by the administrator. (The submitter cannot revise the dissertation information)

In service : The process on the submitted dissertation is completed, and it is now in service for users. (The submitter cannot revise the dissertation information)
